

Template for Forms

- ← **Crossing edge**
The two corners and sides must match in the same edge. The edge must be cutting edge.
- ← **Cutting edge**
The two corners of the profile must be cutting edge.
- ← **Inside corner**
The corners and edges are to be placed in the "hollow" and not on the edge.
- ← **U.S. Corner connection to other side of blank**
The two corners must be connected by the same edge.
